STATE CLEARINGHOUSE

NEWSLETTER

December 1 through 15, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 through 15, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)
Becky Frank (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of December 1-15, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002

TO: ALL CEQA LEAD AGENCIES

FROM: TERRY ROBERTS, STATE CLEARINGHOUSE

RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, December 02, 2002</u>			
2002122001	Rezone Application No. 2002-11-The Auto Prestige Stanislaus County Modesto--Stanislaus Request to rezone from A-2-10 (General Agriculture) to a PD (Planned Development) to allow a used car dealership on a 31,000 +/- square foot parcel.	CON	12/17/2002
2000102009	Petaluma Village Marketplace Petaluma, City of Petaluma--Sonoma The project proposes to expand the existing Petaluma Village Marketplace retail center on to adjoining parcels "C" to the north and "B" to the south. The applicant has proposed to develop 173,400 square feet of retail on Parcel "B" and a 12-screen movie theater and 36,000 square feet of retail on Parcel "C". Development of these sites would require a modification to the existing City-approved Petaluma Village Marketplace Planned Community Development Master Plan Guidelines (Resolution 91-136, 1991)	EIR	01/15/2003
2001121087	Del Amo Boulevard Extension Project EIR/EA Torrance, City of Torrance--Los Angeles The proposed action would extend Del Amo Boulevard between Crenshaw Boulevard on the east and Maple Avenue on the west, and it would also widen an existing segment of Del Amo Boulevard between Maple Avenue and Prairie Avenue. The extension/widening of Del Amo Boulevard would include the construction of a new four lane roadway with optional bicycle lanes in each direction, construction of a new bridge over the Burlington Northern Santa Fe railroad tracks, realignment of a portion of a branch railroad, construction of retaining walls, drainage improvements, relocation of affected utilities, and relocation/reconstruction of affected off-site facilities.	EIR	01/15/2003
2002061128	1901 Newport Plaza Residences (Draft EIR No. 1050) Costa Mesa, City of Costa Mesa--Orange Proposed construction of 161 single-family attached dwelling residences, 5-level parking structure, and two-level subterranean parking structure. Existing office building on site will be retained.	EIR	01/15/2003
2002082066	Bardessono General Plan Amendment and Development Agreement Yountville, City of Yountville--Napa The project includes a General Plan Amendment and a Development Agreement. The underlying project proposal being evaluated in the EIR includes a subdivision and Master Development Plan for a 62-unit inn on 4.9 acres; 28-30 affordable rental dwelling units on a 1.25 acre parcel; a 10,000 square foot residential parcel, and a 6,300 square-foot park parcel. The project also proposes to reclassify the current General Plan Land Use Designations and Zoning Districts from RM Mixed Residential (potential for approximately 46 to 58 dwelling units) and RSC Residential Scaled Commercial (potential for approximately 10,900 square feet of commercial, e.g., retail, office), to PD Planned Development.	EIR	01/15/2003

2002121014	Westside Parkway Project Bakersfield, City of Bakersfield--Kern The project involves the construction of a 13.0 kilometer new east-west transportation facility between Heath Road and State Route 99 in the City of Bakersfield and Kern County.	NOP	12/31/2002
2002122004	Silver Springs, Et. All. Reorganization: LAFCO Project No. 00-02, 00-06, 00-12 El Dorado County Local Agency Formation Commission --El Dorado The project under consideration is a local government reorganization pursuant to the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000. The proposal includes modifications to boundaries of four special districts in western El Dorado County. Specifically, LAFCO may consider the following actions: Spheres of Influence Amendments, related Service Review Determinations, District Boundary Modifications.	NOP	12/31/2002
2002122005	2001.1039E: 55 Ninth Street San Francisco Planning Department San Francisco--San Francisco The State Compensation Insurance Fund (SCIF) proposes to expand their San Francisco office at 1275 Market Street by constructing an adjacent 11-story, approximately 268,000 square-foot office building at 55 Ninth Street. The project site (Assessor's Block 3701, Lot 63) is occupied by a surface parking with about 173 parking spaces, located mid-block on the northeastern side of Ninth Street in the block bounded by Market, Ninth, Mission, and Eighth Streets in the Mid-Market neighborhood. The new building would be approximately 175 feet high, plus a 31-foot mechanical penthouse, and would contain about 268, 000 square feet of office space and a two-level below-grade parking garage with about 134 parking spaces. The proposed building would share open space with and be connected to the adjacent SCIF office building (Lot 64) by a pedestrian bridge located on the second floor and a pedestrian tunnel connection below the second level of the parking garage.	NOP	12/31/2002
2002082074	GPA 2002-05, REZ 2002-14, LL 2002-34 - American Chevrolet Stanislaus County Modesto--Stanislaus Request to change the general plan designation from Urban Transition to Planned Development and Rezone from A-2-40 to Planned Development 1.66 acres to be used for expanded truck parking. The rezone request includes rezoning the existing 6.51 acres automobile dealership operation (APN: 082-06-53 and 082-06-63) to a new Planned Development recognizing the addition of 1.66 acres. A Lot Line adjustment is needed to acquire the 1.66 acre site from the adjoining 54.5 acre parcel.	Neg	12/31/2002
2002091027	Vineland II Water Tank Beaumont-Cherry Valley Water District Beaumont--Riverside The Beaumont-Cherry Valley Water District is proposing to construct and operate potable and recycled water facilities in the Cherry Valley Area. Proposed facilities include two water storage tanks (one potable water, one recycled water), a booster/pressure reducing station and distribution pipelines. The new water storage tanks would be 104 feet in diameter and 34 feet in height. The water storage tanks and booster/pressure reducing station would be constructed on	Neg	12/31/2002

2002121015	Urban Runoff Diversion Program Laguna Beach, City of Laguna Beach--Orange The proposed project would construct 10 urban runoff diversion systems in the near and long term future. Eight existing systems are already in place.	Neg	12/31/2002
2002122002	Glenbrook Annexation Strategy Nevada County Local Agency Formation Commission Grass Valley--Nevada Consistent with the Grass Valley General Plan. This project addresses the environmental effects of rezoning and a phased annexation program for the area of Grass Valley in a 246 acre unincorporated area. Approximately 60 acres within the project area are unimproved.	Neg	12/31/2002
2002122003	Valley of the Moon Children's Home Replacement Project Sonoma County Santa Rosa--Sonoma The Sonoma County Department of General Services proposes to build a new Valley of the Moon Children's Home and Redwood Children's Center in a vacant area just westerly of the existing facility. In total, the size of the new facility is projected to be approximately 46,000 square feet.	Neg	12/31/2002
2002122006	Proposed Empire Gardens Elementary School Replacement for the San Jose Unified School District San Jose Unified School District San Jose--Santa Clara An Initial Study for the proposed project has been prepared. The proposed replacement school will be located on approximately 4.3 acres that include the existing school site and adjacent properties proposed to be acquired by the School District, at the corner of North 22nd Street and East Empire Street. The existing school would be demolished and replaced with new buildings, roadways, parking, and recreational areas. The new school would have a capacity of 650 students (currently the school has 388 students). Construction is expected to take 15 months.	Neg	12/31/2002
2002122007	Tentative Map Application S-5-02 (Placer Pine Subdivision) Redding, City of Redding--Shasta The project sponsor is requesting approval of a tentative subdivision map to subdivide 22 acres to create 44 lots for development of single-family homes. The project would include construction on-site of streets, utility, and storm-drainage/detention improvements necessary to serve the proposed lots. The site's Placer Street frontage would also be improved with pavement widening, curb, gutter, and possibly sidewalk. Streets would be public and have connections to Record Lane and Placer Street at Boston Avenue. The project would be served by City electric and sewer utilities and by Pacific Gas and Electric for natural gas. Waterline would extend north along Irish Creek Lane, then turn east on Thompson Lane before again reaching Placer Street to connect to an existing 10-inch water main located in Placer Street about 500 feet south of Boston Avenue. The route of the water line located at the intersection of Irish Creek Lane and Placer Street to	Neg	12/31/2002

	322 West Ortega Street.		
2002101019	Raisin City Water Distribution System Construction Fresno County --Fresno Construction of a domestic water system in the community of Raisin City. The project involves the construction of one test well. One production well including components and accessories, an estimated 11,150 linear feet of 6-inch water main, one water tank, fire hydrants, approximately 54 service connections, and meter boxes. The project will also involve all other work needed to construct the water system including land acquisition, the installation of a hydro-pneumatic tank, booster pump, submersible pump and related improvements. A new water system will provide all residents with a clean, safe, and reliable water supply.	NOD	
2002101119	Construction of Community Water Well # 31 Madera, City of Madera--Madera A proposal by the City of Madera to acquire a parcel of 18,000 square feet to allow installation of a community water well and construction of a future street.	NOD	
2002102063	JLF Construction, INC. Humboldt County Planning Department --Humboldt A lot line adjustment between APN 510-101-33, 510-111-58, and 510-111-59, where the line between 510-111-58 and -59 is moved to divide APN 510-101-33 into two parcels. Parcel A is developed with a shed, adjacent to the proposed line, to be removed. Parcel B is developed with a single family residence (served by on-site water and sewer), garage, shed, and a legal, non-conforming trailer (served by community water and sewer). Parcel C is vacant. The parcels are/will be served by community water and sewer. The purpose of the LLA is to allow for the future residential development of Parcel A.	NOD	
2002109033	Planned Development PD 2002-1 Napa County Calistoga--Napa Construction of a 10,000 case, 8,200 square foot wine production facility consisting of 2,200 square feet of office/retail space, 2,400 square feet of barrel storage, and 3,600 square feet for a covered crush area. The wine production facility will be surrounded by 48,000 square feet (1.1 acres) of planted vineyards and 18,000 square feet of natural open space and landscaped areas. Paved areas for driveway access and parking lot would consist of 15,000 square feet. Up to four employees would be located on the site, except during harvest when additional part-time or seasonal employees may be located on the site. Parking is provided for up to eight vehicles.	NOD	
2002129001	Lake or Streambed Alteration Agreement for Notification #02-0437 Forestry and Fire Protection, Department of --Trinity The applicant proposes 48 crossings for timber harvesting activities on East Fork Browns Creek, tributary to the Trinity River, Trinity County.	NOD

2002129002	<p>Ramona B Street Express Car Wash, S01-083 San Diego County Department of Planning and Land Use --San Diego</p> <p>The proposal is a Site Plan application by Steve Powell to construct a fully automated exterior ride-thru car wash with limited auto detailing. The facility will operate during the daytime and customers are proposed to stay in their vehicles during the entire washing process. The project will utilize the entire 0.3 acre parcel, which is currently a vacant lot, surfaced with gravel. Grading proposed for the project implementation will involve approximately 450 cubic yards of fill and a ratio of 1.5:1 for minor slopes and 2:1 for major slopes. A car wash tunnel structure, 98-feet long and 20-feet wide, will be constructed on the southwest portion of the site near the property line, adjacent to an existing building. A 32-foot by 26-foot office/cashier building is proposed for construction adjacent to the car wash tunnel. A concrete masonry unit wall approximately 16-feet high will be constructed near the northern property lines. The site will be paved with Portland cement proposed for construction at the B Street property line. A retaining wall measuring 70-feet long second floor as a resident manager's apartment and the bottom floor will be used to store supplies and spare parts. Access to the car wash is proposed from B Street. The proposed project will require a maximum of two employees.</p>	NOD	
2002129003	<p>Parcel Split, Amendment to Location of Previously Approved Building Envelope and Driveway Location San Anselmo, City of San Anselmo--Marin</p> <p>The Development Agreement signed in 1994 stated that the total development would be for 4 single family dwellings. Two of these dwellings have already been constructed. This parcel would have two single-family dwellings. The application is to have the lot line between the two houses formally recognized by a parcel split; change the configuration of the building envelopes; and relocate the driveway.</p>	NOD	
2002128001	<p>Domestic Water Supply Permit for the City of Riverside's Tippecanoe Regional Treatment Facility Modifications to Add Ion Exchange Treatment Plant for Perchlorate Health Services, Department of San Bernardino--San Bernardino</p> <p>Ten rental ion exchange (IX) vessels will be installed to remove perchlorate from groundwater produced from Gage Wells 29-2, 29-3, 92-1. 2002102114	Ninth Street Bridge Modesto, City of Modesto--San Joaquin The City of Modesto plans to replace the existing Ninth Street Bridge with a seismically safe bridge. The bridge will have independent utility and is not associated with any future planning programs that require increased bridge capacity or service. The new bridge will have the same vehicular lane characteristics as the previous bridge. Replacement is needed to address seismic safety concerns; capacity enhancements are not proposed.	FIN	
2002121007	U.S. Borax Inc. Life of Mine Project Kern County Planning Department --Kern The proposed project includes increasing the maximum footprint of the open pit mine area; increasing the overburden stockpile area and height; expansion of the gangue material storage area; construction of new boric acid ponds and an expansion of the Boric Acid Plant. An area between the designed crest of the highwall, and the designed toe of the overburden stockpiles is being provided as a contingency area. This area is being provided in the event that the pit crest or the overburden toe needs to extend beyond the limits indicated. It may also be used for miscellaneous needs such as access roads, storage of equipment, supplies, etc. The proposed project has been designed for the impacts evaluated based upon a foreseeable remaining mine life of 40 years. The proposed project will increase the maximum footprint of the pit from the approximate 1,731 acres currently permitted to a range of 2,615 acres to a maximum of 3,254 acres (if the pit is required to utilize the entirety of the contingency area described above).	NOP	01/02/2003
2002121020	Pinnacle at Uptown Orange Orange, City of Orange--Orange The project applicant, B.R.E. 2002128036	35th Street Bike Lane Project San Diego, City of San Diego--San Diego Project proposes to provide Class II north-south connection through the communities of Normal Heights between Adams Avenue and Wightman Street. It would connect with the existing Class III facility along Wightman Street. This proposed bikeway would intersect the proposed top priority project to upgrade the Class III facility along Wightman to a Class II facility. 35th Street would connect many destinations within the community including an elementary school near University Avenue and Adams Avenue Park. Although this project is proposed as Class II one block of Class III must be implemented between University Avenue and Polk Avenue due to street width and parking considerations. The improvements would include bikeway and destination signage as well.	NOE	
2002128037	Island Avenue, Market Street Bikeway Project San Diego, City of San Diego--San Diego Project proposes to provide enhanced bikeway access into Centre City from the eastern neighborhoods and communities. The project would utilize Island Avenue from the I-5 Freeway east into the Golden Hill neighborhood. At 32nd Street, this bikeway will proceed north and continue on Market Street to Euclid Avenue in the Southeastern San Diego. This project would have Class II and Class III segments. The Class II segments would include Island Avenue between the I-5 Freeway and 28th Street and Market Street from 32nd Street to 40th Street and from Toyne Street to the I-805 Freeway. Class III segments would be on Island Avenue from 28th Street to 32nd Street and on Market Street from the I-805 Freeway to Euclid Avenue. This project would intersect three existing bikeway facilities, including Class II lanes on Euclid Avenue south of Market street and Class III routes along 22nd Street and 28th Street. Three other proposed top priority would be linked by this project, including Class II routes on Quail Street and Euclid Avenue north of Market Street. This project would also link with several other proposed bikeway projects, including 16th Street, 25th Street, 32nd Street, and 47th Street. The improvements would include bikeway and destination signage as well.	NOE

2001082017	Highway 29 Specific Plan St Helena, City of St. Helena--Napa A Specific Plan prepared pursuant to State Law, regulating land use, circulation, open space, finance and implementation.	EIR	01/17/2003
2002071042	ProLogis Warehouse/ Distribution Industrial Park (North Rialto) Rialto, City of Rialto--San Bernardino ProLogis Development Services proposes development of a warehouse/distribution industrial park intended to accommodate two to three large industrial warehouse and distribution facilities and several smaller general industrial operations on an approximately 133-acre site. The proposed project includes approximately 2.84 million square feet of building area. As shown in the proposed site plan, two large warehouse/ distribution buildings with a total area of approximately 2.71 million square feet are proposed to accommodate the large warehouse/ distribution uses. Three smaller buildings with a total area of approximately 130,000 square feet are proposed for the general industrial uses. The project includes: an amendment to the General Plan Circulation Element to eliminate the segment of Walnut Avenue between Palmetto and Tamarind Avenues and Tamarind Avenue between Walnut and Highland Avenues, and reclassifying Walnut Ave between Alder and Tamarind Avenue as a collector street; an amendment to the General Plan Conservation Element to eliminate the project site from its current Sector A-9 mineral resource designation; approval of a building height variance to relax the 35 foot building height limit; and approval of a tentative parcel map to consolidate several properties currently under separate ownership.	EIR	01/17/2003
2001051010	Northern Sphere Area Supplemental EIR Irvine, City of Irvine--Orange New information has been received with regards to cultural resources that will require additional environmental analysis, in accordance with Section 15162 of the CEQA Guidelines. Specifically, a Cultural Resource Management Report was prepared in June of 2002 that recognized the Irvine Valencia Growers (IVG) Packing House as a significant historical resource. As a result, a Supplemental EIR will be prepared.	NOP	01/02/2003
2002121026	Specific Plan No. 308, Amendment No. 1 (Gavilan Hills Specific Plan) Riverside County Planning Department --Riverside The proposed project is to amend the approved 879.5-acres Gavilan Hills Specific Plan by removing the 27-hole golf course and replacing with 644 residential lots with one acre minimum lot size on 780 acres. The remaining acreage of the specific plan site will consist of 78.80 acres of open space, 12 acres for a school site, 6.6 acres for a park and 4.0 acres used for major roads.	NOP	01/02/2003
2002121027	Bradley Landfill and Recycling Center Transition Master Plan Los Angeles City Planning Department --Los Angeles The proposed project consists of two phases. The first phase is a transitional 43 foot vertical landfill expansion that will provide additional short term disposal capacity within the boundaries of the existing landfill to allow the landfill to operate until the established closure date of April 14, 2007. The second phase will consist	NOP	01/02/2003

	of a 6,000 tons per day transfer station and 1,000 tons per day Material Recovery Facility that will be constructed adjacent to the existing landfill. The purpose of this plan is to provide for an orderly transition of Bradley Landfill and Recycling Center from an active landfill to a transfer station/Materials Recovery Facility.		
2002122014	Encina Gym/Arillaga Family, Recreation Center Santa Clara County --Santa Clara Stanford University proposes to construct a 75,000 square foot Recreation Center. The proposed project includes the demolition of Encina Gym, also known as the Brown Building. Recreation centers are common to most universities; they are designed to serve as social centers that serve the health and fitness of their students, faculty and staff. The proposed Recreation Center is consistent with the Department of Athletics, Physical Education and Recreation (DAPER) Master Plan and addresses the key department goals. The Recreation Center will benefit the entire Stanford Community and has been identified by Stanford as a key "People Program". People Program initiatives, such as the Recreation Center, are intended to improve the quality of life of students, faculty and staff.	NOP	01/02/2003
2002122017	Conono Phillips Petroleum, Inc. Refinery (Rodeo) Ultra Low Sulfur Diesel Fuel Project Contra Costa County --Contra Costa If approved, the proposed project would include the following changes and modifications which would occur on a total of approximately 25 acres at several locations within the developed 495-acre portion of the Refinery: * Construction of a new ULSD hydroheater. * Modification of the existing sulfur recovery plant to accommodate the increase in plant capacity. * Conversion of the existing diesel hydroheater to a naphtha hydroheater. * Replacement of existing atmospheric crude distillation tower and of existing vacuum distillation tower, and modifications to delayed cooking unit. This would allow an increase of crude processing capacity by an additional 10,000 bpd. * Construction of caustic treatment units at butane distillation unit and fuel gas center. * Additions and modifications to ancillary facilities, such as pumps, heat exchangers, instrumentation, utilities and piping, including a new 12kV/4kV and 12kV/480V-power house.	NOP	01/02/2003
2002122018	Plumas County 2003 Winter General Plan Amendments and Almanor Annual Review Plumas County Planning Department --Plumas Proposal to evaluate the County's development standards for roads in what the County defines as moderate opportunity areas. The County has three different opportunity areas Prime, Moderate, and Limited. These areas designate the required level of services required for development. The Prime Opportunity development standards requires that development be served by paved roads, community water and sewer, service by a local fire district, and other improvements. The Moderate Opportunity Area is broken down into five sub-classes: Suburban, Secondary Suburban, Rural, Prime Expansion, and Agricultural Buffer. The minimum parcel size and development standards for the respective areas.	NOP	01/02/2003

	Program (MSCP). Access to Parcel 3 will be off Colinas Mira, a public street. Access to Parcels 1 and 2 will be off Dehesa Road.		
2002121029	Fitzgerald Minor Subdivision San Diego County Department of Planning and Land Use --San Diego The project is a minor subdivision of the 31.14 gross acre Fitzgerald property into 2 legal parcels, each supporting a single family residence, a leach septic field and associated infrastructure. An existing house, driveway and septic field will remain on Parcel 2 in the northwestern portion of the property. Both lots will be on septic and will be serviced by Valley Center Municipal Water District. Deer Springs Fire Protection District will service the project site. The project site is within two school districts: Valley Center Union and Escondido Union School Districts. The proposed residence for Parcel 1 will gain access from a private driveway off of North View Court. The limits of grading include 2000 cubic yards of total cut and 2000 cubic yards total fill for the development of the single family residence, septic field and driveway for Parcel 1. The project proposes to dedicate 26.06 acres of coastal sage scrub and chaparral in a biological open space easement.	Neg	01/03/2003
2002121030	Revisions to the San Diego County/Grading Ordinance San Diego County Department of Public Works --San Diego The proposed project is an amendment to the San Diego County Grading Ordinance, which would 1) organize and strengthen the enforcement provisions; 2) incorporate the Watercourse Ordinance into the Grading Ordinance; 3) incorporate the Brushing and Clearing Ordinances into the Grading Ordinance; 4) increase coordination with the Multiple Species Conservation Plan (MSCP), the Biological Mitigation Ordinance (BMO), and the Habitat Loss Permit (HLP) Ordinance; 5) revise and clarify the surface mining clean-ups to recognize "Interim Management Plans" pursuant to state law; 6) improve environmental review, by requiring CEQA, storm water protection and other discretionary review for proposed grading be performed earlier in the permit process, at the time of review and approval of grading or improvement plans; 7) replace the Planning and Environmental Review Board (PERB) review of major grading activities with notification to owners of all property within 300 feet of the subject property and a 15 day comment period; 8) provide for ministerial issuance of grading permit which fully conform to the approved grading or improvement plans; 9) revise the performance security requirements for grading permits; 10) establish streamlined approval processes for grading plans for (a) a previously approved project (TM, TPM, MUP), (b) minor grading, and (c) agricultural grading; 11) revise the exemptions for grading and clearing permits; 12) establish an Agricultural Permit Coordinator position; and 13) include the addition of a new DPW minor grading permit for projects involving up to 5,000 cubic yards that are prepared by a Registered Engineer.	Neg	01/03/2003
2002121031	Irrigation Improvement Funding Program Panoche Drainage District Firebaugh--Fresno The proposed project is to establish a program to provide funding to landowners within Panoche Drainage District who wish to improve their existing irrigation systems. The program will provide \$1,800,000 for the improvement of irrigation systems for up to 3,900 acres of farmland. The proposed project may result in increased irrigation efficiency, water conservation, and a reduction in the volume of deep percolation contributing to the region's drainage problem. 2002122021	County Initiated Deer Wintering Range Revision General Plan Amendment (GPA-02-05) Siskiyou County Planning Department Mount Shasta--Siskiyou General Plan Amendment (GPA) to modify the Critical Deer Wintering Area designation for a portion of the Upper Sacramento Deer Winter Range. The GPA would replace the current 10-acre density designation with a zero-acre density designation for an approximate 260-acre portion of the Upper Sacramento Deer Winter Range on the east side of Lake Siskiyou. The current Deer Winter Range boundary line is not proposed to be adjusted or removed. The amendment is being proposed consistent with the California Department of Fish and Game's (DFG's) field determination. According to DFG staff wildlife biologists, the area no longer winter any substantial number of deer. The value for that function has been lost due to past and existing development in the area. The Shasta Holiday Subdivision, the M. Shasta Resort golf course and vacation chalets, and the sewage treatment ponds are included in the area recommended for zero density limitations.	Neg	01/03/2003

2002121033	Big Bear City Community District Groundwater Exploration and Well Test and Development Program Big Bear City Community Services District --San Bernardino The Big Bear City Community Services District (District) provides water to 5,120 acres of land serving approximately 7,900 full-time residents (year 2000 estimate). In order to provide sufficient supply for existing and projected demand, the District has determined it is necessary to locate additional well sites to maintain water supplies during the current drought. The proposed project is the drilling of three test wells at various locations on the southerly side of Bear Valley to evaluate the potential water production capacity and water quality at each site. The test wells locations have been selected based upon water bearing potential and permission to drill on the property. The results of the test wells will be used in the consideration of future water production wells that would be evaluated as a discrete project under CEQA.	Neg	01/06/2003

2002071075	GPA 01-005 Terra Bella and Ducor Community Plan Tulare County Resource Management Agency --Tulare Terra Bella and Ducor Community Plans, GPA 01-05, an amendment to the Tulare County General Plan amending land use, circulation, open space and urban boundaries elements in the Terra Bella and Ducor areas. The Communities are located along State Route 65 approximately six and ten miles south of the City of Porterville respectively, in the south central portion of Tulare County.	EIR	01/22/2003
2002072001	50 Oak Street, San Francisco Conservatory of Music San Francisco Planning Department San Francisco--San Francisco The proposed project is the seismic upgrade and major alteration of the existing four-to five-story structure at 50 Oak Street and demolition of the adjacent three-to four-story structure at 70 Oak Street and new construction of a six-story structure for the San Francisco Conservatory of Music. The new construction would be structurally integrated into one facility with one address. The two existing structures total about 91,000 gsf. The Conservatory of Music would contain about 125,000 gsf, including about 19,200 gsf of performance space; 17,000 gsf of performing support space; 26,500 gsf of educational studios and spaces; 7,500 gsf of administrative office space; 7,000 gsf of library space; 21,600 gsf of corridor and circulation space; and 26,200 gsf of service and storage space. Of the total area, about 98,500gsf are applicable to the FAR. While the project would function as one building, it would appear as two buildings from Oak Street.	EIR	01/22/2003
2002091086	Sun City by Del Webb Indio, City of Indio--Riverside The Sun City Shadow Hills Project Master Plan would regulate the use of approximately 770 +/- acres of the land within the 2,700 +/- acre Gateway Conceptual Specific Plan located north of the San Bernardino Freeway (US 10) in the City of Indio. The Project Site is generally located east of Jefferson Street, south of Avenue 40, west of Monroe Street and north of Avenue 42. The proposed project includes amendments to the City's General Plan Land Use and Circulation Element and the Conceptual Specific Plan Land Use and Circulation Plans, including the removal of Madison Street from Avenue 40. Generally, the residential areas of the project would have an average density of 4.0 units per acre and occupy 517 acres within the site. The recreational facilities would occupy a total of approximately 224 acres and include a public 18-hole golf course with a driving range and clubhouse, a private recreation center and open space areas. The proposed project provides for development of a golf course oriented age-restricted active adult residential community with 3,102 housing units along with extensive recreational, open space and commercial/mixed-use amenities on the 771-acre site. 2002121054	Farber Jefferson Street Condo - CT 02-13/CP 02-08/CDP 02-32/SDP 02-14 Carlsbad, City of Carlsbad--San Diego A tentative map, condominium permit, coastal development permit, and site development plan to allow grading and construction of 11 two and three story condominium units including 2 affordable units, with a roof deck and subterranean parking structure on an existing lot located at the northeast corner of Jefferson Street and Las Flores Drive. The project requires the demolition of an existing single story residence. Access to the project will be taken from Las Flores Drive via a driveway entry to an underground parking structure.	Neg	01/07/2003
2002122044	The Villaggio Subdivision Vacaville, City of Vacaville--Solano Proposal to subdivide an 8.0 acre parcel on the northeast corner of Browns Valley Road and Vaca Valley Parkway into 56 lots for detached single-family homes. The lots range in size from 3,612-sq. ft. to 10,076 sq. ft. The proposal includes one single-story house plan and two two-story house plans ranging in size from 1,563-sq.ft. to 2,167 sq.ft. Proposed building materials include concrete tile roofing, cement plaster/stucco exterior wall finish, stone veneer, and section garage doors. As part of this project, the applicant is requesting a General Plan amendment, and a zone change from Neighborhood Commercial (CN) to Residential Low-Medium Density. Access to the subdivision will be provided via Vaca Valley Parkway. Secondary access for emergency vehicles only will be provided from Browns Valley Road. The project includes standard public streets and underground utilities.	Neg	01/07/2003
2002122046	Penrod Coastal Development and Special Permits for On-site Weddings and Special Events (CDP-02-15/SP-02-32) Humboldt County --Humboldt Coastal Development and Special Permits are required for the establishment of a wedding / event venue to be in operation 10 to 12 weekends per year. The event venue will allow up to 90 vehicles parked on-site. The hours of operation for the weddings/events will be 10:00AM - 10:00PM, Friday through Sunday only. The applicant will provide chairs, tables and portable toilet facilities; the event patrons will provide all food, beverages, decorations, etc. Minor grading for development of a parking area is proposed. No surfacing of the parking area is proposed. Sewage disposal for weddings/events will be provided by portable toilets and water by an on-site well. The parcel is 11 acres in size and has had an operational Christmas tree farm on the southern portion of the parcel for +/- 18 years. The parcel is developed with a 2,257 sf residence with attached three car garage and a 2,400 sf Ag. Exempt barn.	Neg	01/07/2003
2002122047	Berkeley Rail Stop and Transit Plaza Project Berkeley, City of Berkeley--Alameda The project consists of a series of capital improvements at the existing Rail Stop and Transit Plaza, which are intended to create a safer and better-utilized area. The basic infrastructure configuration and operational characteristic of the project already exist. The capital improvements described below are required to improve passenger safety and security, provide smooth connections with other transportation modes such as bicycling and walking, and to allow full and equal access for people with disabilities. 2002091111	Ronald W. Caspers Wilderness Park, San Juan Creek Crossing Repair Project Orange County San Juan Capistrano--Orange CDFG is intending to execute a Lake and Streambed Alteration Agreement (SAA #R5-2002-0348) pursuant to Section 1601 of the Fish and Game Code to the project applicant, County of Orange, Public Facilities and Resources Department. The applicant proposes to alter the streambed to repair a "dip" on Arizona type crossing on the downstream side of its crossing at San Juan Creek located within Ronald Casper's Wilderness Park. Specific project activities include the placement of rock rip-rap (675 cubic yards) along the down stream portion of the San Juan Creek low water crossing and the replacement of one (1) 10-foot long cement mortar pipe (CMP). The project site encompasses approximately 3,640 square feet (140' X 26', 0.08-acre). The rip-rap will be placed along a 140-foot section on the south side of the roadway, extend 26 feet downstream of the roadway, and will be approximately 5-feet high. Trucks will haul the rock to the project site and an excavator will place the rocks in the creek from the existing road. The project is located in Casper's Regional Wilderness Park in Orange County.	NOD	
2002101009	Avila Beach Marine Outfall Repair and Extension Project Avila Beach County Water District --San Luis Obispo Project entails repair and extension of an existing 12-inch diameter steel marine outfall pipeline with an approximate 480-foot steel pipe segment to facilitate continued discharge of treated effluent from the District Wastewater Treatment Plant in Avila Beach, CA. 2002128078	Seal 20 Bridge Decks Caltrans #2 -- Using state funds, Caltrans Maintenance will seal 20 bridge decks. The work will consist of shot blasting the decks, applying methacrylate sealant, re-striping, and placing markers. All work will be confined to the surface of the bridge decks. Positive means (barriers) will be used to prevent any construction-related material from entering waterways. Staging of equipment will occur in established pull-outs on pavement.	NOE	
2002128079	Shingletown Safety Roadside Rest Area Caltrans #2 --Shasta Widen pavement width between the auto and truck parking lots at the Shingletown Safety Roadside Rest Area to accomodate vehicles from both directions and to allow snow removal operations. Construct concrete curb and repair existing sidewalk in compliance with ADA requirements. Includes tree removal, which because of bird nesting, shall be restricted to between August 1st to March 31st.	NOE	
2002128080	Likely Stormwater Drainage Project Caltrans #2 --Modoc Reconstruction of a stormwater drainage system on State Route 395, in Modoc County, in the community of Likely. The existing drainage system, which consists of a series of paved and unpaved gutters and subsurface culverts parallel to the east side of the roadway, no longer functions properly due to landscape and ditch modifications. Storms sometimes result in flooding of residences and businesses adjacent to the highway. The proposed project entails reconstruction of paved and unpaved gutters, construction of three drainage inlets and a 24-inch diameter subsurface culvert system, structure within an existing irrigation canal. The outlet structure will consist of a 24-inch diameter pipe with a flared-end section and rock slope protection to dissipate flows. Drainage inlets will include concrete vaults (sand traps) which will trap heavier solids, such as sand and cinders, that may be present in storm water runoff. The sand traps will include clean-out access for routine maintenance.	NOE	
2002128081	Mt. Shasta Stormwater Drainage Project Caltrans #2 Mount Shasta--Siskiyou Caltrans is proposing drainage work at two sites adjacent to Interstate 5 at the Central Mt. Shasta southbound off-ramp.	NOE

2002122048	Hamilton City Flood Damage and Ecosystem Restoration Study Reclamation Board --Glenn Rebuild or realign an existing levee. Restore up to approximately 2,600 acres to native gas and riparian vegetation, depending on the location of the realigned levee.	NOP	01/08/2003
2002121055	Apple Valley Ranchos Water Company Well 29-Water Supply Permit Number 3610003 Health Services, Department of Apple Valley--San Bernardino Apple Valley Ranchos Water Company proposes to construct a 600-foot deep well (Well 29), a pump house, salt chlorine generator, electrical power supply, two seepage pits for well start-up discharge, a property perimeter block wall, and a diesel power generator.	Neg	01/08/2003
2002122049	County Road 19 Bridge Widening Yolo County --Yolo Bridge widening project for existing bridge and structural safety purposes.	Neg	01/08/2003
2002122050	Penitencia Water Treatment Plan Improvements Project Santa Clara Valley Water District San Jose--Santa Clara The proposed project includes six improvement projects that were not previously reviewed in the Treated Water Improvement Project Phase 2 Improvements Initial Study.	Neg	01/08/2003
2002122051	Construction and Operation of the Molecular Foundry University of California, Regents of the Oakland--Alameda Berkeley Lab proposes to construct The Molecular Foundry, a six-story laboratory building of approximately 86,500 gross square feet and a utility building of about 8,000 gsf, in the southeast corner of the Berkeley Lab site. It would be used for the interdisciplinary exploration and study of nanosciences, and would be a national use facility open to visiting scientists. Construction would take place between January 2004 and February 2006.	Neg	01/08/2003
2002122052	Bedford Falls Residential Subdivision Fairfield, City of Fairfield--Solano This project is a request for Tentative Subdivision Map approval to subdivide a 9.9-acre parcel into a 69-lot subdivision for single-family detached homes, located at the southwest corner of Portland Drive and Cement Hill Road. Lot sizes would range from 3,500 square feet to 7,156 square feet and house sizes would range from 1,359 square feet to 2,138 square foot. This project includes any work, including work in the public right-of-way adjacent to the project, necessary to serve the subject parcel with adequate utilities (sewer, water, etc.).	Neg	01/08/2003
2002122053	U.P. #02-29, Aspen Exploration (Raider S. and Paramdeep K. Chohan, Surface Owner) Tehama County --Tehama To establish a natural gas well in an EA-AP; Exclusive Agricultural-Agricultural Preserve Zoning District. The project site is located south of Kirkwood, approximately 1,360 feet west of Inghram Road, a county maintained road,	Neg	01/08/2003

	specifically 1,360 feet west and 1,110 feet south of the NE corner of Section 26, T23N, R3W, M.D.B.&M.		
2002122054	U.P. #02-30, Aspen Exploration (Frances Fiscus Trustee, Surface Owner) Tehama County --Tehama To establish a natural gas well in an EA-B:827; Exclusive Agricultural-Special Building Site Combining (827,000 square feet, 19 acre minimum) Zoning District.	Neg	01/08/2003
2002122055	U.P. #02-28, Aspen Exploration (Roy W. Klingenburg Trust, Surface Owner) Tehama County --Tehama To establish a natural gas well in an EA-B:871; Exclusive Agricultural-Special Building Site Combining (871,000 square feet, 20 acre minimum) Zoning District.	Neg	01/08/2003
2002032009	Elk Grove Unified School District Pleasant Grove High School and Katherine L. Albani Middle School Project Elk Grove Unified School District Elk Grove--Sacramento The Elk Grove Unified School District proposes to construct the Pleasant Grove High School and Katherine L. Albani Middle School on land totaling 106- acres, of which 85 acres will be utilized by the EGUSD for the high school and middle school campus. The other 21 acres will remain as undeveloped open space.	NOD	
2002051146	City of Maywood Riverfront Park Project Maywood, City of Maywood--Los Angeles Amendment of the Coastal Conservancy's June 25, 2001 authorization to disburse funds to the City of Maywood related to the Maywood Riverfront Park to add: 1) acquisition of the L.A. Junction Railroad property; 2) authorization to disburse funds for technical assistance; and 3) authorization to disburse funds for construction of the bicycle/pedestrian staging area.	NOD	
2002072093	10-Ama-124, KP 1.61/2.25, (PM 1.0/1.4), Re-establish Roadway Shoulders Caltrans #10 Ione--Amador Caltrans proposes to remove sediment that has accumulated upon the existing roadway shoulders, repave the shoulders, and install an asphalt concrete dike on the outer most edge of the newly paved shoulders. This will eliminate the flooding upon the roadway during periods of heavy rains and provide safer road conditions for the traveling public.	NOD	
2002102116	Vasco Road Safety Improvements Alameda County Public Works Agency Livermore--Alameda This project involves realigning about 1.3 miles of Vasco Road in unincorporated Alameda County north of Dalton Avenue (Livermore City Limit) and south of the Contra costa County line. The realigned section would be located westerly of the existing roadway between mile Posts 3.0 and 4.3 and would involve excavation of existing hillsides and filling of a portion of an existing swale. Existing underground high-pressure gas lines, overhead power transmission lines, and telephone lines on wood poles that conflict with the proposed improvements will be relocated prior to project construction. The realigned road right-of-way varies from approximately 18-22 meters (60 to 72 feet) in width. The typical roadway section would have two 3.6-m (12-foot) travel lanes with 2.4 m (8-foot) paved shoulders. In addition, a 3.6 m (12-foot) truck-climbing lane would be constructed on the uphill segments in	NOD

2002121056	Commercial WECS Permit No. 112/Change of Zone No. 6723/Variance Case No. 1739 Riverside County Planning Department Palm Springs--Riverside Wind Energy Project and ancillary facilities, with 36 wind turbines totaling 21.6 MW (Alternative A) or 35 wind turbines totaling 23.1 MW (Alternative B), with change of zone from W-2 to W-E, and variance from 1000 foot scenic setback along Interstate 10 allowing setbacks of 618-feet to 703-feet.	NOP	01/09/2003
2002121059	Cross Valley Connector Gap Closure Project: Extension of Newhall Ranch Road from Copper Hill Drive/Rye Canyon Road to I-5 Santa Clarita, City of Santa Clarita--Los Angeles The proposed project would extend Newhall Ranch Road from its existing terminus at Copper Hill Drive/Rye Canyon Road west to the I-5/SR 126 interchange, a distance of 1.6 miles. The new road would be 160 feet wide with eight traffic lanes (four in each direction), a raised median, and a bike path. Since both ends of the proposed median are "fixed", only two alignment alternatives were studied and are under consideration. The eastern portion of Alternative 1, which is the preferred alternative, would be located slightly south of the Alternative 2 alignment to avoid an existing Heritage Oak Tree.	NOP	01/09/2003
2002121062	Southeast Imperial Specific Plan and General Plan Amendment Imperial, City of El Centro--Imperial The proposed project is a General Plan Amendment and the preparation of a Specific Plan in accordance with sections 65450-65457 of the government code (State Planning Law).	NOP	01/09/2003
2002122061	City of Cupertino General Plan Update Cupertino, City of Cupertino--Santa Clara The proposed project is the update of the City of Cupertino General Plan.	NOP	01/09/2003
2002121057	Alameda Corridor-East Project Baldwin Avenue Grade Separation Alameda Corridor-East Construction Authority El Monte--Los Angeles Baldwin Avenue grade separation would provide a grade separation in the City of El Monte at the Baldwin Avenue crossing of the former Southern Pacific (SP) railroad tracks, which are currently owned by the Union Pacific Railroad. The proposed underpass would lower the approaches of Baldwin Avenue North and South of the railroad. The project is proposed to reduce train noise and vehicular traffic congestion and to improve safety at the Baldwin Avenue railroad crossing. Construction of the proposed project would occur over 18 months to two years.	Neg	01/09/2003

2002122060	West Side of Main Street, McCloud Siskiyou County Planning Department --Siskiyou The County Planning Department is initiating a Zone Change for nine commercial and industrial properties along the west side of Main Street between Colombero Drive and Minnesota Avenue in McCloud from C-U (Neighborhood Commercial) and M-M (Light Industrial) to C-C (Town Center). In the 1980s, the properties along the west side of Main Street were zoned Neighborhood Commercial (C-U). The C-U district allows such uses as convenience stores, automobile service stations, and repair garages. The parcels along that corridor owned by the railroad were zoned Light Industrial (M-M). The M-M district allows for light manufacturing and other light industrial uses. Several of the buildings within this area are contributing elements to the National Registrar Historic District. It is of concern that many of the land uses allowed within the existing Zone District may not be compatible with the historic character of McCloud. The Town Center District (C-C) designation is found to be more in keeping with the historic uses of the downtown area. Land uses allowed in the C-C District are intended to promote and enhance the diversified uses compatible with and necessary for the viability of town centers and rural communities. To meet this objective, the C-C district provides for retail, professional office, residential, and social/cultural public uses.	Neg	01/09/2003

2002128166	Installation of Acid, Caustic and Organic Scrubbers with Carbon Adsorption Units Toxic Substances Control, Department of --Sacramento Pollution Control Industries of California intends to install three semi-circular eight foot diameter vent hoods. Two hoods for acid and caustic wastes will be in the Storage Building. The third, for the organic waste, will be located outside of the Storage Building. These units are installed to control air emissions from the operation of bulking into containers to protect the worker's safety. The acid and caustic hoods will be attached to neutralization scrubbers which use sodium hydroxide and hydrochloric acid respectively. The organic hood will utilize a carbon adsorption scrubber. Acid and caustic scrubbers are exempted from the Sacramento Metropolitan Air Quality Management District permitting requirement. A Permit To Construct has already been issued for the organic scrubber on July 13, 2001.	NOE	
2002128167	Third Readoption of the Emergency Regulations to Amend Standards of Universal Waste Management Related to Cothode Ray Tubes Toxic Substances Control, Department of -- Emergency regulation to amend the universal waste regulations to allow cathode ray tubes (CRTs), cathode ray tube containing devices, and cathode ray tube glass to be managed pursuant to the universal waste management requirements in lieu of the traditional hazardous waste requirements. These universal waste standards will provide streamlined requirements for the collection, transportation, and intermediate recycling of CRTs, but will require full hazardous waste storage and treatment standards at the destination facility. The proposed regulations prohibit the disposal of CRTs to municipal solid waste landfills (CRTs may be disposed in hazardous waste facilities). The proposed regulations will also provide a conditional exemption for persons who generate a total of five or less CRT devices in one year from the following universal waste requirements: labeling/marketing; accumulation time limits; employee training; release response; off-site shipments; tracking; and exports. However, these persons will still be required to dispose of their CRT devices at an authorized facility. Application of the Universal waste standards to persons that manage CRTs, CRT devices, and CRT glass, rather than full hazardous waste regulation, will reduce the cost and burden of compliance, encourage the recycling of this wastestream and result in a decrease in the mismanagement of these wastes.	NOE

2002128168	Port of San Francisco, Interim Removal Measure to Excavate Approximately 15,000 Cubic Yards Contaminated Soil for Off-site Disposal Toxic Substances Control, Department of San Francisco--San Francisco The project is a workplan to remove piles of contaminated soils which were imported to the site by a prior tenant of the property. The contaminants in the soil contain approximately 39 ppm soluble lead, above the Soluble Threshold Level Concentration (STLC) of 5 ppm in Title 22, Section 66261.44, California Code of Regulations. The total lead concentrations (220 ppm total lead) are below the Total Threshold Level Concentration (TTLC) standard of 1000 ppm. Trace total hydrocarbons levels may also be present in the soil but these are well below the hazardous waste thresholds. The soil is hazardous in California but is not hazardous waste under federal standards. The objective of the workplan is to remove the soil piles in order to limit potential worker exposure and avoid potential contaminant migration to nearby Islais Creek and San Francisco Bay until a final remedy for the site is developed to address cleanup of any other contamination from past operations on the property.	NOE	
2002128169	Manifest Discrepancies Emergency Regulations Second Readoption Toxic Substances Control, Department of -- The regulations implement a more stringent procedure for reporting unresolved manifest discrepancies involving certain types of wastes of special concern to the Department of Toxic Substances Control (DTSC). In designating the types of wastes for which the more stringent reporting procedure is implemented, DTSC targeted those wastes that hold greater potential for uses as weapons of terror, due to their specific physical or chemical properties (i.e., explosive or poisonous materials). These wastes are identified on the manifest as U.S. Department of Transportation hazard division 1.1 through 1.6, or hazard division 6.1.	NOE

Forestry and Fire Protection, Department of Watsonville--Santa Cruz Adoption of standards applicable to certain forms of development and to situations which may be hazardous to life and property resulting from fire and explosion and provision for issuance of permits and recovery of certain fees.	NOD	
2002128170	Adoption of Additions and Amendments to Existing Waste Tire Facility Permitting and Storage Regulations California Integrated Waste Management Board -- The California Integrated Waste Management Board (CIWMB) proposes to adopt and implement regulations that would amend existing regulations governing the permitting and storage requirements for minor and major waste tire facilities, as well as, add enforcement penalties and update permit application forms. Upon adoption by the CIWMB, these regulations would be applicable statewide. The proposed project will include enforcement procedures for permitted and unpermitted waste tire facilities, as well, as for violation of existing financial assurance requirements. The storage of waste tires in moveable containers will no longer be excluded from regulations; however, operators with moveable container storage may still be exempt from the requirements to acquire a waste tire facility permit under the new definition of "collection". Existing "used" tire facilities that meet certain requirements will no longer be required to obtain a waste tire facility permit. There are other minor changes to the regulations.	NOE	
2002128171	Old Town SHP at El Fandango Grease Trap Replacement & Installation & Palm Tree Removal Parks and Recreation, Department of --San Diego Project consists of replacing an existing grease trap and installing an additional grease trap on a non-historic building. Also, a damaged palm tree will be removed and associated replanting will be conducted.	NOE

2002128172	Gate Installation-Maple Hill River Bar Entrance Parks and Recreation, Department of --Humboldt Install 20-foot metal pipe gate at entrance to Maple Hill River Bar in Humboldt Redwoods State Park. Gate will prevent unauthorized public access to river during periods of high water levels and reduce illegal activities after hours. Project protects public safety and park resources and supports continued use and maintenance.	NOE	
2002128173	Seacliff Pier Rehabilitation and ADA Improvements Parks and Recreation, Department of --Santa Cruz Construct an ADA-compliant ramp access and repair existing historic pier at Seacliff State Beach to protect public safety, improve accessibility, and prevent continued deterioration and/or destruction of the resource. Replace missing and deteriorated wood, approximately 5-10% of the structural framing, pilings, and all decking. The wooden pier has been repaired numerous times since construction.	NOE	
2002128174	Taber Meadow Restoration Parks and Recreation, Department of --Mendocino Clear Taber Meadow in Standish-Hickey State Recreation Area of non-native trees, Scotch Broom, French Broom, Himalayan blackberry; and revegetate with native trees and shrubs. Area will be cleared with hand tools, planting native trees, shrubs, and grasses as stock becomes available and removing non-native trees as native trees become established. Removal of non-native species will continue until seedbank is exhausted or natural regeneration no longer occurs. This project will restore native vegetation to the meadow and enhance visitor experience.	NOE	
2002128175	Whitehouse Creek Burn Project Parks and Recreation, Department of --San Mateo Continue an on-going program of prescribed burns on approximately 145 acres in the coastal prairie at Ano Nuevo State Reserve to reduce the occurrence of exotic plant species; remove dead, standing branches of woody species; provide more favorable conditions for native perennial grasses; and reduce fuel hazard at the site. Burns will be conducted in accordance with the Ano Nuevo State Reserve Whitehouse Creek Prescribed Burn Plan, the California State Parks "Wildland Fuel Management Guidelines for the State Park System", and applicable state and federal fire management and air quality guidelines and regulations.	NOE	
2002128176	Land Acquisition Parks and Recreation, Department of --Nevada Acquire 728.71 acres of forestland on the south side of the South Fork Yuba River Canyon adjacent to South Yuba River State Park. The property is in 3 separate blocks extending to or almost to the river, between Edwards Crossing and the town of Washington. Most of the land is moderately to very steep with some gentle slopes and is covered with mostly Douglas fir and ponderosa pine with some white fir, sugar pine, incense cedar and hardwoods. The project will protect the watershed, viewshed, and historical resources, and end further logging of the property.	NOE

2002128177	<p>Streambed Alteration Agreement Concerning Unnamed Tributary to Sweetwater River</p> <p>Fish & Game #5</p> <p>Chula Vista--San Diego</p> <p>The Operator did alter the stream as an emergency action to install three gabion drop structures designed to control the velocity and erosion within the ephemeral drainage. In addition, a 12-foot-wide access road approximately 585 feet long was constructed along the easterly side of the waterway to facilitate periodic maintenance of the pre-existing downstream detention basin (SAA 5-202-94). The access road included a concrete drainage crossing. Permanent impacts to jurisdictional habitat consists of 0.06 acres of unvegetated stream. In addition, the construction resulted in permanent impacts to 0.15 acres of coastal sage scrub and temporary impacts to less than 0.01 acres of coastal sage scrub. The Operator now proposes to install mitigation for the impacts associated with the emergency action. The Operator shall mitigate for the permanent impacts to 0.06 acres of unvegetated stream at a 2:1 mitigation to impact ratio by restoring 0.12 acres of riparian habitat upstream of the installed gabion structures. Black willow, narrow-leaved willow, and mule fat are the main riparian species to be planted, and an appropriate understory seed mixture applied.</p>	NOE	
2002128178	<p>Streambed Alteration Agreement #5-2002-0381</p> <p>Palos Verdes Estates, City of</p> <p>Palos Verdes Estates--Los Angeles</p> <p>The Operator propose to alter the streambed and bank by the installation of approximately 530 linear feet of 24-inch RCP and associated energy dissipating structure measuring 12-feet by 20-feet located within a portion of the stream channel within the community of Palos Verdes Estates. In addition, a 3-foot layer of rock rip-rap is proposed within the flow line at the base of the structure. Approximately 0.005 acre of jurisdictional channel will be impacted as a result of the proposed project. At no time will any native riparian vegetation be impacted as a result of the proposed project. The Operator shall not impact more than 0.005 acre of stream channel, of which all are permanent impacts. The Operator shall mitigate 0.005 acre of permanent impacts to the stream channel at a compensation to impact ratio of 3:1, by providing adequate funding to an Arundo removal fund in Los Angeles County for the enhancement of a minimum of 0.015 acre riparian habitat at a Department approved location.</p>	NOE

2002122069	<p>Presentation Center Dining Room Santa Clara County Los Gatos--Santa Clara</p> <p>This application is for a Use Permit, Architectural and Site Approval, and a Grading Permit for the development of a new welcome center and dining facility at an existing retreat facility. There is no increase proposed in the capacity of conference rooms or in the number of sleeping facilities. The existing dining hall will be converted into a storage building. The proposed facility will be approximately 10,155 square feet. The existing dining room is approximately 4,470 square feet; there will be a net increase of 5,685 square feet of dining room space. The welcome center will be comprised of a bookstore, reception area, and the possibility of an eco-corner, an environmental education center. The dining hall will be designed to accommodate up to 200 guests into three dining rooms. The dining facility will include a kitchen, a food serving area, and a lobby. The purpose of building the new dining hall is to accommodate up to three separate groups using the retreat center concurrently. No buildings will be demolished as part of the proposed project. Additionally, the applicant proposes to restore parts of the site through planting native tree species and rehabilitation open areas where old buildings once stood. Traffic circulation will be redesigned to keep on site traffic to a minimum by concentrating most visitor parking close to the entrance of the site.</p>	Neg	01/13/2003
2002122072	<p>Watsonville Civic Plaza Building Watsonville, City of Watsonville--Santa Cruz</p> <p>Planned Development, Special Use Permit and Design review permit to allow the construction of the Watsonville Civic Plaza Building and Public Parking Garage project on a vacant, paved 2.43 acre parcel at the southern end of Watsonville's Central Commercial Core Planning area on Main Street. The project involves the construction of a four story 157,807 square foot multi-use Civic building that will include a 49,297 square foot Library, 46,083 square feet of County Court space, 20,592 square feet of City office space, 16,053 square feet of miscellaneous office lease space, 1,550 square feet of ground floor retail space and 21,232 square feet of common area. The Civic Plaza building also includes the option to develop 13,330 square feet of future office space for a maximum total of 168,107 square feet. The project also include the construction of a 5 story 461 space public parking structure on the adjacent lot to serve the new building and the City's Public Downtown Parking District.</p>	Neg	01/13/2003

2002092032	Highland Springs Caltrans #3 Lakeport--Lake The project will widen State Route 29 at an intersection and add traffic signals and left turn lanes.	NOD	
2002101004	Pinnacles Telephone Company San Benito County --San Benito Installation of stream crossings as part of installation of about 12 miles of underground telephone cable between Paicines and the Pinnacles.	NOD	
2002102036	Verizon California Coastal Development, Conditional Use and Special Permits Humboldt County --Humboldt Coastal Development and Conditional Use Permits are required for the development of 57' tall lattice tower and three eight (8) foot diameter microwave dish antennas. They will be sited adjacent to the existing 49 foot tower and microwave relay facility operated by Verizon (formerly West Coast Telephone) as part of a common carrier fixed point-to-point microwave service. The new tower and microwave installation are necessary for system reliability and quality. The facility routes calls along an existing telecommunication network consisting of five towers relaying microwave signals between Eureka and Crescent City. This tower and the existing tower are for telephone service, not cellular or wireless communications. Verizon owns the 22,500 sf property on which this development is proposed. These two towers and their existing appurtenant equipment building will be enclosed within the existing 2,475 sf. fenced area secured by a locked gate and barbed wire. The proposed tower will not be lighted.	NOD	
2002102044	Lodi Electric Energy Facility Lodi, City of Lodi--San Joaquin Construct and operate a 49 MW electric generating facility on 2 acres of vacant land in the City of Lodi, and a 3-mile natural gas pipeline to provide fuel to the facility.	NOD	
2002109008	Young Life Oakbridge Camp/MUP 77-005w1/LOG 93-19-014A San Diego County --San Diego The project is the expansion of the existing facility including adding new and remodeling existing structures, new accessory structures and increasing the camp's capacity of 300 campers.	NOD	
2002111042	Southwest Well Field Infiltration Pilot Study Project Indian Wells Valley Water District --Kern The Southwest Well Field Infiltration Pilot Study Project will involve the construction and installation of test facilities on District-owned property, including two new 5" piezometers, flow meter, level sensor, monitoring sensors for piezometers, site piping and appurtenances, evapotranspiration and meteorological testing apparatus, and miscellaneous improvements to two existing onsite percolation basins of approximately two acres each, followed by performance of the infiltration test. The infiltration test will involve discharge of a measured quantity of potable water from the District's local water system into the	NOD

	existing infiltration basins for a period of approximately one year. Flow into the basins, depth of water in the basins, ground water elevations, ground water quality, evapotranspiration and meteorological parameters will be measured and recorded throughout the test.		
2002111046	UTT Middle School Field Lighting Tustin Unified School District Tustin--Orange The Tustin Unified School District proposes to undertake the construction and operation of field lighting at existing little league field at Utt Middle School ("Project"). The Project will be constructed in cooperation with the City of Tustin, in conjunction with and at the request of Tustin Eastern Little League, a non-profit organization which has operated a youth baseball league on fields at UTT Middle School for over ten years. The Project proposes to light the UTT Middle School athletic field at the corner of Browning and San Juan Streets to allow youth athletic activities after dusk. The fenced baseball diamond area would be most heavily used for baseball related activities during the Little League baseball season (February through July), with a reduction in use during the off-season (August through January), the area beyond the baseball diamond's left-field fence would be lighted and available for various activities, including soccer practices.	NOD	
2002112020	City of Lodi Water Well No. 26 Lodi, City of Lodi--San Joaquin Well 26 is a 384-foot deep; gravel enveloped water well located at 1020 Bridgetown Drive (APN: 015-530-56), which is within the existing 4.66-acre City of Lodi Katzakian Park site. The well has a sanitary seal to 144' below ground. It has a 125 hp motor and a vertical turbine pump producing an average of 1,400 gallons per minute. The well has a decorative block wall enclosure will be designed for sound attenuation with an overall sound level of 65 dBA at a distance of 60 feet. The well is designed to serve an approximately one half-mile radius of primarily residential development. The construction of the water well and its enclosure is pending certification of this document and subsequent approval by the State Department of Health Services.	NOD	
2002129018	EA 38651 Riverside County Transportation & Land Management Agency --Riverside RM90564 proposes to subdivide 2.24 acres, with one existing single family residence, into 2 single family residential parcels with 1 acre minimum lots.	NOD	
2002129019	Eagle Vines Golf Course Napa County --Napa SAA R3-2002-0766 In conjunction with the construction of a new golf course, the operator proposes to install three golf cart bridge crossing over Sheehy Creek on the south side of Highway 12 in Jameson Canyon and northwest of Chardonnay Golf Course, Napa County.	NOD	
2002129020	Graves Creek Tributary Culvert Installation and Road Widening San Luis Obispo County --San Luis Obispo SAA R3-2002-0275 The operator will install a 47-foot long section of 24-inch corrugated metal pipe (CMP) to carry storm water runoff under White Oak Road. About 2.2 cubic yards of rip-rap will be installed. Another culvert will be installed	NOD

	under a private driveway off White Oak Road, and will consist of two 42-inch CMP's that are 36-feet long. An eighteen foot wide, 45-foot long roadway will be constructed along the top bank of the tributary.		
2002129021	Behan Site Plan, STP 02-029, Log No. 84-10-008g San Diego County Department of Planning and Land Use --San Diego The proposed project is a site plan for the development of a single-family residence, detached garage, and a driveway in Julian Estates. The project site is a 4.20-acre parcel, designated as lot number 35 on the previously approved TM 4489. A portion of the property is restricted by an open-space easement, which was part of the mitigation measures for biology in the previously certified EIR. All proposed development for this site plan is located outside the boundaries of the open space. The site will be accessed by West Incense Cedar Road. The project will be served by an on-site sewage disposal system and will obtain water through a proposed well.	NOD	
2002128193	Natural Gas Pipeline-Cosumnes Power Plant Fish & Game #2 --Sacramento Cosumnes River, Laguna Creek, and Badger Creek, near Twin Cities Road and Highway 99.	NOE	
2002128194	Berry Fill Project Fish & Game #2 Loomis--Placer Filling of Swale and Construction of Mitigation area on same lot.	NOE	
2002128195	Culvert Replacement Fish & Game #3 --Sonoma The project includes replacing an existing culvert with a new 10 foot x 8 foot culvert that is in-line with creek flow providing for better fish passage. The existing culvert will be abandoned in-place and filled to the point where it intersects with the new culvert. The new culvert, once in place, will be backfilled with approximately 3 feet of river rock and other native materials. The banks on both sides of the creek will be graded to match original grade and rock slope protection (rip rap) will be placed at the in-let and out-let of the culvert. Temporary fill will be placed in the stream on the west side to accomodate the roadway while the culvert is being replaced. All temporary materials will be removed upon project completion. The creek is dry during the summer months and all work will occur while the creek is dry. Equipment will need to enter the dry creek bed to complete the work. Bulldozers, backhoes and compactors are typical pieces of heavy equipment that may be used for this project. Some vegetation may need to be removed to provide access to the channel.	NOE	
2002128196	Culvert Replacement at Hillview and Fairway Drives Fish & Game #3 Los Altos--Santa Clara Replacement of damaged culvert near Hillview and Fairway Drives. A new 18-inch diameter storm drain pipe will replace an existing 16-inch storm drain pipe. The sacked concrete outfall will be removed and replaced with rock rip rap.	NOE

<u>Documents Received on Friday, December 13, 2002</u>			
2002128197	Meadow Creek Tributary Culvert Installation Fish & Game #3 Arroyo Grande--San Luis Obispo The proposed project would install two corrugated pipe culverts in the tributary to allow access to a private land parcel. The culverts would be approximately 66-feet long, 66-inches wide, and 51-inches high. Flared outlets on the culverts and placement of rock slope protection would reduce the potential for erosion at the site. A small excavator would be used to remove approximately 43-cubic yards of material to accommodate the culverts. Concrete slurry would be placed on top of the culverts to hold them in place, then imported fill would be placed on the slurry and compacted. An asphalt driveway would be laid on top of the fill. During construction, water would be diverted through a pipe that would remain in place until completion of all construction activities.	NOE	
2002128198	Cakebread Water Line Replacement Fish & Game #3 -- The operator proposes to excavate on the west side of the unnamed tributary, at the conjunction of the County water line and where the line splits off to Cakebread Cellars, to locate the broken line. The 1 1/2 inch PVC line will then be cut and a 1 inch PVC line will be slid inside the existing line to replace the broken line. The excavation will be approximately 3 to 6 feet deep and will occur on the west side of the unnamed tributary. There is existing rip rap in the channel that will be repositioned to protect the two water boxes on the bank. Issuance of a Streambed Alteration Agreement Number R3-2002-0980 pursuant to Fish and Game Code Section 1603.	NOE	
2002128199	Davis Installation of Culvert at "Peetie's Creek" Fish & Game #3 Fort Bragg--Mendocino Installation of culvert across a creek for construction of driveway Issuance of a Streambed Alteration Agreement Number R3-2002-0715 pursuant to Fish and Game Code Section 1603.	NOE	
2002128200	Clear Lake Dredging at Braitto's Marina Fish & Game #3 --Lake Dredging of approximately 600 cubic yards of silt that has been deposited in the marina lagoon over the past 40 years. Issuance of a Streambed Alteration Agreement Number 2002-0850 pursuant to Fish and Game Code Section 1603.	NOE	
2002128201	Hanna Drive Bridge Fish & Game #3 American Canyon--Napa The Operator proposes to install a temporary freespan flatcar bridge over North Slough at the easterly extension of Hanna Drive, approximately 1/4 mile east of Commerce Boulevard in the City of America Canyon, Napa County. To accommodate the length and depth of the steel girders, a portion of the bank above the 100 year flood elevation will be pulled back. Issuance of a Streambed Alteration Agreement Number R3-2002-0921 pursuant to Fish and Game Code Section 1603.	NOE

<u>Documents Received on Friday, December 13, 2002</u>			
2002128202	<p>Wind Warning System Caltrans #2 --Lassen</p> <p>The California Department of Transportation is proposing to install wind warning system consisting of Roadside Weather Information System (RWIS) and Changeable Message Signs (CMS) to deliver advisories to the traveling public at four locations along Highway 395 in Lassen County. The project will entail some trenching for utilities, maintenance vehicle pullouts and additional paving of walkways and paths for maintenance access. Minor amounts of additional R/W will be required for installation of utility lines and hook-ups to existing utilities.</p>	NOE	
2002128203	<p>Adoption of Revised Regulations for Landfill Closure and Postclosure Maintenance California Integrated Waste Management Board --</p> <p>These proposed regulations for landfill closure and postclosure maintenance amend Title 27, California Code of Regulations, Division 2, Chapters 2, 3 and 4. Existing law provides that the operation of landfill shall be governed by its closure and postclosure maintenance plan upon receiving its final shipment of waste for disposal. CIWMB has adopted regulations that govern closure and postclosure maintenance. The proposed regulations are primarily intended to slightly modify the process by which local Enforcement Agencies and CIWMB approve closure plans and postclosure maintenance plans submitted by land fill operators. Under the proposed regulations, CIWMB reestablishes its role as a coordinating agency in the approval process and operators are required to submit plans that meet state minimum standards before CIWMB may concur in a facility's solid waste facilities permit. The regulations also limit the ability of operators to delay indefinitely closing a landfill that should be closed. Property closure of a landfill is very costly. Some landfills, to avoid the expense of closure, have adopted a practice of trickling waste, that is accepting very small amounts of waste for disposal, amounts so small that the waste flow would not, under normal circumstances, justify the operation of the landfill. The new regulations limit that practice.</p>	NOE	
2002128204	<p>Aqua Hedionda Lagoon Maintenance Dredging (02/03-SD-35) Parks and Recreation, Department of --San Diego</p> <p>Project consists of replacement of 500,000 cubic yards of sand on the beach 1500 feet south of the lagoon's discharge jetty to Oak Street in Carlsbad to the north (dredged from Aqua Hedionda Lagoon by Cabrillo Power as part of their normal maintenance procedures, in a separate non-state project with an approved EIR). The protocol for replacing the sand is covered in that EIR, and will be followed during this process.</p>	NOE	
2002128205	<p>Tijuana River Valley Invasive Plant Control Program (02/03-SD-38) Parks and Recreation, Department of --San Diego</p> <p>Project consists of the removal of exotic vegetation (eucalyptus, giant reed, myoporum, castor bean and tamarisk) on the alluvial fan of Goat Canyon in border Field State Park. This project is designed to aid in the least Bell's vireo recovery program. To avoid disturbing nesting, all work will be done between 9/15/2002 and 3/15/2003. No roads will be created, no soil will be disturbed, and plant materials will be removed from the site. If removing exotic vegetation leaves patches of bare ground, native seeds collected on site will be sown.</p>	NOE

2002128206	Scripps Institute of Oceanography/ Nearshore Canyon Experiment (02/03-SD-33) Parks and Recreation, Department of --San Diego Project consists of an experiment conducted between September 15th through December 15, 2003 by the Scripps Institute of Oceanography of the near-shore canyon area off Torrey Pines state Beach, in conjunction to experiments being conducted at adjacent non-state owned beaches, to obtain field observations to test models of how the steep, underwater canyon topography affects wave, current and sediment movement. To effective conduct, the experiment three 8" x 10' trailers, a chemical toilet and a fenced equipment area will be located at the base of the bluffs, near the northern end of the experiment boundary. A video camera will be placed on the cliffs above the beach.	NOE	
2002128207	Gate Installation - Nelson Road Entrance Parks and Recreation, Department of --Humboldt Install 20-foot metal pipe gate and approximately four bollards at Nelson Road entrance to Hidden Springs Campground in Humboldt Redwoods State Park. Gate will prevent unauthorized public access and reduce illegal activities after-hours. Project protects public safety and park resources and supports continued use and maintenance.	NOE	
2002128208	Exotic Species Control - Francis Beach Parks and Recreation, Department of --San Mateo Remove exotic, invasive plants, including cape ivy, from Francis Beach at Half Moon Bay State Beach with application of herbicide (trade names "Garlon" and "Round-up"). Monitor site and reapply herbicide treatments as necessary. Project preserves and protects native natural resources.	NOE	
2002128209	Willow Ridge Spring Box Replacement Parks and Recreation, Department of --Santa Clara Replace dilapidated spring box and associated facilities servicing Willow Ridge Trail at Henry W. Coe State Park. Replace existing wodden trough with new 80-gallon plastic trough; connect ten-foot overflow pipe from trough to natural drainage. Install crossbars over trough to prevent native wildlife from entering water; attach "critter stick" escape device inside trough. Project protects public health and supports continued use and maintenance.	NOE	
2002128210	Exotic Species Control and Revegetation - Alva Paul Creek Parks and Recreation, Department of Morro Bay--San Luis Obispo Remove exotic, invasive ice plant and white sweetclover located northwest of Alva Paul Creek at Morro Stand State Beach with application of herbicide (trade name "Rodeo"), then revegetate area with native plant species. Monitor site and reapply herbicide treatments as necessary. Project restores native dune and riparian ecosystems and preserves natural resources.	NOE	
2002128211	Exotic Species Control and Revegetation - Hunter's Lot Parks and Recreation, Department of Morro Bay--San Luis Obispo Remove exotic, invasive ice plants and cut down approximately 42 eucalyptus trees located in Hunter's Lot at Morro Bay State Park. Remove ice plants with application of herbicide (trade name "Round-up Pro"), then revegetate area with	NOE
